Fast learner
Clean, documented code

Luis Moreno-Torres Marqués

Software Engineer .NET · C# · SQL · Applied AI

Software developer based in Madrid. I work at the Madrid Companies Registry (Registro Mercantil de Madrid) with C#, ASP.NET Web Forms and SQL, integrating locally hosted AI services. Solid background in Java and Spring Boot, plus personal projects built and deployed end to end. Looking to keep growing in back end and applied AI within an experienced team.

EXPERIENCE

Software Engineer .NET · Registro Mercantil de Madrid

June 2026 – present · Madrid

- Development and maintenance of web applications in C# and ASP.NET Web Forms (.NET Framework).
- SQL querying and data modelling.
- Integration of locally hosted AI services from C#.

Software Developer Java · Indra

2025 · 4 months · Remote

- Back-end development in Java with Spring Boot and Spring Framework.
- Distributed teamwork with Git / GitHub workflows in a large engineering organisation.

Visual Design · Círculo de Baile

2023 – 2024

- Promotional posters and visual material for events and campaigns.

PROJECTS

GAIA · Personal AI assistant

- Orchestrates multiple local and cloud AI models, with voice, image generation and automation.

GamerZone · Real-time communication platform

- Built and deployed end to end; ran in production with real users: servers with roles and permissions, channels, group DMs, WebRTC calls with screen sharing, push notifications, PWA and an auto-updating Electron desktop app. Node.js, WebSockets, Oracle Cloud and Caddy.

Other (GitHub)

- .NET MAUI cross-platform app, WPF/XAML UI, Android music player in Kotlin, Java CRUD over binary files and a bilingual portfolio on Netlify.

EDUCATION

Higher Vocational Degree in Multi-Platform Application Development (DAM) · CEU FP

2023 – 2025 · Madrid

Baccalaureate in Science and Technology

2022 – 2023
